ABOUT THE ARTIST

Diana, known as “By Dusk” in the realm of rhythms, is a London-based DJ. The nickname comes from being a **consultant by day and DJ “by dusk”**; once the working day ends you can often find her behind the decks across the city. For Diana, DJing has been a lifelong journey - from crafting CDs for road trips to curating playlists for school performances and house parties.

In March 2024, By Dusk graduated from **London Sound Academy**. Soon after, along with two friends, she launched the **“Underground Tribe”** — a creative collective born from shared passion for Afro-electronic music and underground culture **hosting over 10 successful events** since Aug 2024. From the floors of London's iconic **Ministry of Sound, Egg, E1, Gallery Club and Maison Close Mayfair** to international stages in **Cape Town, SA** and **Fête de la Musique in France**, By Dusk is making her mark — and with a **residency on Patchouli Deep Radio**, her sound is reaching well beyond the dancefloor.

With melodic, rhythmic, and intriguing sets, the music spans from deep / afro house to pulsating techno. By Dusk's performances are an immersive journey, filled with tribal and drum-heavy beats, often featuring hints of African and Latin influences, thanks to her background as a Latin dancer. Known for distinguished music taste, smooth transitions and captivating live performances, By Dusk rocks the house with vivid DJ sets that keep the audience pumped and grooving!
